WEB DEVELOPMENT IMMERSIVE STUDENT
GENERAL ASSEMBLY   Washington, DC
January 2017 - April 2017

- A full time immersive program over the course of three months amounting to an average of 500 hours of time spent learning and gaining experience in both front-end and back-end languages, tools, and methodologies.
- For my first project I created a simon game using the front-end technologies: HTML, CSS, and Javascript/jQuery.
- For my second project I created a recipe sharing website using the back-end technologies: Ruby on Rails in the course of five days.
- For my third project I collaborated with group members and created an application using the front-end technology, angular which had a Rails API within the course of seven days.

REAL ESTATE PARALEGAL
THE LAW OFFICES OF JOHN E. REID, PLLC   Washington, DC
July 2016 - December 2016

- Worked remotely and created my own schedule to accomplish assigned tasks and meet necessary deadlines.
- Prepared and mailed notices to defendants in regards to the tax-sale or mortgage foreclosure of their property and courtesy copies of documents filed with the court.
- Performed title searches; created title reports and abstracts of legal documents in a yearly average of 30 cases.
- Prepared complaints, dismissal, motions, and affidavits of compliances for various courts and online filing systems, a weekly average of 35 cases.

REAL ESTATE PARALEGAL
TOBIN, O'CONNOR AND EWING   Washington, DC
November 2012 - May 2016

- Analyzed title reports on new tax-sale liens to determine interested parties in a yearly average of 650 cases.
- Performed title searches; created title reports and abstracts of legal documents in a yearly average of 30 cases.
- Prepared complaints, dismissal, motions, and affidavits of compliances for various courts and online filing systems, a weekly average of 35 cases.
